Reasons for Allowance

The following is an examiner's statement of reasons for allowance: Applicants' process for the catalytic hydrogenation of methylolalkanals is patentably distinct because the prior art of record does not teach or suggest hydrogenating methylolalkanals, in the liquid phase, wherein the pH of the hydrogenation feed is set to 6.3 to 7.8 by addition of at least one tertiary amine. Such a modification allows for increased yield and selectivity in the hydrogenation product while decreasing byproduct formation--as applicants have shown unexpectedly by way of comparative data in the present table 1.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Elvis O. Price whose telephone number is 571 272-0644. The examiner can normally be reached on 9:30am to 6:00pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Yvonne L. Eyler can be reached on 571 272-0871. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
